

Klanghelm **MJUC jr.**

- USER GUIDE -

The screenshot shows a window with two panes: 'CREDITS' and 'GLOBAL SETTINGS'. The 'CREDITS' pane contains the 'Klanghelm' logo and version information. The 'GLOBAL SETTINGS' pane contains several controls: 'Enable Tooltips' (yes/no), 'Knob-Mode' (vertical), 'Show & Edit Values' (yes/no), 'GR-Meter Speed' (slow/fast), and 'Mouse-Drag Sensitivity' (a slider from high to low). A 'save' button is at the bottom. A callout box points to a close button (X) in the top right corner.

Close the GLOBAL SETTINGS menu without saving

Shows an explanation, when hovering over a control

sets the mouse drag behaviour when moving a knob on the GUI

Displays a text box below each knob, where you can review and edit the control value

Sets the behaviour of the gain reduction meter (when the VU-meter is set to GR). When set to SLOW, the gain reduction is shown with the timing constants of a standard VU meter. When set to fast, the GR meter acts like a peak gain reduction meter.

Click on the hyperlink to visit the Klanghelm website

Click to save the global settings and close the menu. NOTE: the changes affect the current instance immediately. All other active MJUC instances will be affected on project reload.

Sets the mouse drag sensitivity when moving a knob on the GUI

The global settings are saved here:

Windows: C:\Users\\AppData\Roaming\Klanghelm\MJUCjr\settings.xml

OSX: /Users/<username>/Library/Klanghelm/MJUCjr/settings.xml

If you want to revert to the FACTORY global settings, simply delete the settings.xml file from your HDD.

Code and GUI: Tony Frenzel
